Professional Summary

Cloud Infrastructure Engineer with 1 year of experience in AWS, Azure, VMware, Windows Server, Linux, and networking. Skilled in automation and scripting using Python, SQL, and PowerShell to optimize cloud operations. Building a strong foundation in data management with a career goal of transitioning into data engineering.

Education

- **BCA, Department of Computer Application (Data science)** **CGPA: 9.27/10**
KL University, guntur 2022-2025

EXPERIENCE

- **Analyst | Cognizant Technology Solutions** **Feb 26, 2026**
Selected as Analyst with focus on **cloud infrastructure Engineer** and data analytics.
Will contribute to projects involving AWS, Azure, SQL, and data engineering pathways.
- **Data Analytics Job Simulation | Deloitte Australia (Forage Virtual Program)** **March 2025**
Completed Deloitte job simulation involving data analysis and forensic technology.
Created a data dashboard using Tableau.
Used Excel to classify data and draw business conclusions.
- **Business Analytics Intern | Q Management Solutions India Pvt. Ltd,** **July – Sept 2024**
Delivered actionable insights by transforming complex datasets with Power BI, SQL, and Excel, driving faster decisions and improved business performance.

Skills

- **Technologies :** Linux Administration, Virtualization, VMware Workstation, Networking, Windows Server 2022, Active Directory Domain Services (ADDS), DNS, Database Management Systems: SQL, MySQL, MongoDB, Data Structures & Algorithms, Machine Learning & AI Fundamentals, Big Data Analytics, Cloud Computing,
- **Tools:** Power BI, Tableau, **Monitoring Tools:** Zenoss, SolarWinds, SCCM. GitHub, Firebase, **Microsoft Office Suite:** Excel, Word, PowerPoint, co-pilot.
- **Professional Skills:** Data Visualization & Business Analytics, Automation & Scripting: Python, PowerShell, SQL. Problem-solving, Workflow Optimization, Decision-Making

PROJECTS

- **Portfolio Website** **Sep – Dec 2024**
 - Built a responsive and interactive portfolio showcasing full-stack skills with dynamic project galleries and SEO optimization.
 - Developed with React, Next.js, Tailwind CSS, Node.js, and Firebase for scalability and performance.
 - Integrated contact forms, animations, and UX enhancements for a seamless experience.
- **Social Media Phishing Link Detection** **Nov 2024– may 2025**
 - Built a web-based phishing detection system using AI/ML with logistic regression algorithms.
 - Implemented backend with Django framework, integrated APIs, and database storage for secure data handling.
 - Designed admin login and deep web development features to manage detection results and enhance security

CERTIFICATION

- **Microsoft Certified: Power BI Data Analyst** **Nov — 2025**
- **Salesforce Certified AI Associate**
- **Aviatrix Certified Engineer Multicloud Network Associate**
